APFS Number F2018041802	NAICS Code 541611	Component United States Coast Guard	Sub-component Headquarters Command
Contract Vehicle DWAC/OASIS	Dollar Range \$10,000,000 to \$20,000,000	Small Business Program TBD	Contract Status Recompetition
Incumbent CSRA		Contract Number HSCG23-13-D- ATB043/ HSCG23-14-J-APC035	Contract Complete Oct. 31, 2024
Estimated Release Oct. 7, 2019		Anticipated Award Quarter Q1 2020	
POC Name Mary Gabriel	POC Phone 202-475-3865	POC Email mary.t.gabriel@uscg.mil	
Description These offices require specialized ship acquisition support at a Program Manager level for several acquisitions up to \$10B. The work is varied and will be in response to both long range planning and short fuse high level demands. Tasking may include, but is not limited to, review of Major System Acquisition Manual (MSAM) and non-MSAM project documents; review or development of briefs for very senior leadership (such as but not limited to the Program Executive Officer, Vice Commandant of the Coast Guard, members of Congress, or the Secretary of DHS); development of cost estimates; coordination of Government Furnished Equipment (GFE) and Government Furnished Information (GFI); lifecycle management; resolution of issues that arise with the CDRL Management Tool; requirements management; systems engineering analysis; and test and evaluation. The contractor must have reach back capability and on site expertise for the following project management areas: acquisition, configuration and requirements management; logistics; business finance and earned value management; cost analysis; systems engineering analysis; and test and evaluation.			

APFS Number F2018044044	NAICS Code 541330	Component United States Coast Guard	Sub-component Surface Forces Logistics Center
Contract Vehicle DWAC/OASIS	Dollar Range \$1,000,000 to \$2,000,000	Small Business Program SB	Contract Status New Requirement
Estimated Release Nov. 1, 2019		Anticipated Award Quarter Q1 2020	
POC Name Karl Stambaugh	POC Phone 410-762-6910	POC Email karl.a.stambaugh@uscg.mil	
Description FRC Hull Structure Monitoring system to measure hull structural strains required to infer pressures in the bow and stern structure of one FRC. Conduct dedicated trials with wave buoy. Conduct RANS based Computational Fluid Dynamics Computations and compare to local pressures inferred from structural measurements. Assess impact of measured response on fatigue of local structural details with Finite Element Analysis.			

APFS Number F2018044091	NAICS Code 541990	Component Transportation Security Administration	Sub-component None
Contract Vehicle DWAC/OASIS	Dollar Range \$5,000,000 to \$10,000,000	Small Business Program TBD	Contract Status Recompetition
Incumbent Aver, LLC		Contract Number HSTS03-17-J-CIO255	Contract Complete Sept. 22, 2024
Estimated Release Feb. 15, 2020		Anticipated Award Quarter Q4 2020	
POC Name Ary Kim	POC Phone 5712273778	POC Email ary.kim@tsa.dhs.gov

The contractor shall support end-users by effectively managing and supporting IT-based projects in the following areas: Program and Project Management (PM) Asset Management Software Management Acquisition Strategy: TBD			

APFS Number F2019045593	NAICS Code 541219	Component United States Coast Guard	Sub-component Headquarters Command
Contract Vehicle DWAC/OASIS	Dollar Range \$5,000,000 to \$10,000,000	Small Business Program SB	Contract Status Recompetition
Incumbent Hamilton Enterprises, LLC		Contract Number GS-25F-F0181M, order number HSCG23-16-F-VRL194	Contract Complete March 29, 2025
Estimated Release Dec. 18, 2019		Anticipated Award Quarter Q2 2020	
POC Name Michael Carroll	POC Phone 757-523-6098	POC Email michael.p.carroll2@uscg.mil	
Description The purpose of this Task Order (TO) PWS is to acquire Contractor support services for non-inherently governmental business, financial accounting, payment processing, and administrative tasks within the Coast Guard Finance Center. During fiscal year (FY) 2003, the USCG was transferred from the Department of Transportation (DOT) to the Department of Homeland Security (DHS). As a DHS component, the United States Coast Guard (USCG) Finance Center (FINCEN) located in Chesapeake, VA became the financial processing, accounting, and reporting service provider for both the Transportation Security Administration (TSA) and the Domestic Nuclear Detection Office (DNDO) which are also components within DHS. The USCG's financial management functions operate in a strategic environment that has changed dramatically in recent years. These changes have significantly impacted the requirements which govern the way the USCG now conducts financial management activities. TSA and DNDO rely on the FINCEN to provide accurate financial reports in an efficient and effective manner. In FY16, DNDO was the first of the three agencies that transferred to the Department of Interior-Interior Business Center's (DOI IBC) Oracle R12 business solution (information technology services) while the FINCEN continued to retain responsibility for accounting and processing payments for the DNDO. The transition has experienced significant and unforeseen setbacks resulting in additional unanticipated and cumbersome manual processes not required in a fully functional, robust end-to-end workflow imaging and invoice processing financial system.			

APFS Number F2019045809	NAICS Code 541330	Component DHS HQ	Sub-component Countering Weapons of Mass Destruction (CWMD)
Contract Vehicle DWAC/OASIS	Dollar Range over \$100 million	Small Business Program TBD	Contract Status Recompetition
Incumbent Belcan, Obsidian		Contract Number 70RDND18F00000013, HSHQDC-17-J-00140, HSHQDC-17-F-00208	Contract Complete March 16, 2025
Estimated Release Nov. 22, 2019		Anticipated Award Quarter Q2 2020	
POC Name Nathaniel Evans	POC Phone 2022547164	POC Email nathaniel.evans@hq.dhs.gov	

Description Program management and technical support services to CWMD Policy, Plans, and Analysis Directorate The purpose of this effort is to provide programmatic, systems engineering, information analysis, policy and planning development, reporting, outreach, and scientific support services to the Countering Weapons of Mass Destruction (CWMD) Office Policy, Plans, and Analysis directorate in order to enhance the nation's abilities to prevent terrorists and other threat actors from using weapons of mass destruction and support operational partners in closing capability gaps along adversary pathways. APFS Number F2019045921	NAICS Code 541990	Component FEMA	Sub-component None
Contract Vehicle DWAC/OASIS	Dollar Range \$2,000,000 to \$5,000,000	Small Business Program TBD	Contract Status Recompetition
Incumbent Jacobs Technology Inc.		Contract Number HSFE20-15-P-0094	Contract Complete March 31, 2025
Estimated Release Nov. 15, 2019		Anticipated Award Quarter Q3 2020	
POC Name Peter McGuckin	POC Phone 301-447-1922	POC Email peter.mcguickin@fema.dhs.gov	

Description In support of FEMA's IS Program, the Contractor shall provide all necessary support to meet the tasking and deliverables defined in Section 2.0, including: • The Contractor shall provide the necessary educational/training/management support to effectively and efficiently manage and administer FEMA's IS Program (to include EMI and other FEMA programs). • The Contractor shall review new and revised course material to ensure that it meets the standards required for college credit. The Contractor shall coordinate and maintain records for the approval of course materials for college credit through a Regionally Accredited college or university. • The Contractor shall award college credit through a Regionally Accredited college or university for those successfully completed independent study courses as approved by the designated Regionally Accredited college or university and as requested by the individual student at the student's expense. • The Contractor shall communicate with representatives from States (State Training Officers), local government, higher education programs, other Federal programs, related associations and organizations, and private citizens requesting access to training materials or other information on the IS program and courses. • The Contractor shall communicate with students on all student services, such as applications, tests, student records, certificates and transcripts, college credits, continuing education units, and access to training materials. There are currently approximately 217 accredited courses available through the current contract. These courses result in a combined average annual number of course completions of approximately two million. An additional 50 courses are projected to be added to the program annually and will require review for accreditation. It is also projected that approximately 50 existing courses will be revised annually and will require review for accreditation. New independent study courses are developed under separate contract(s) and/or by government employees. These courses are submitted to the independent study program contractor for enrollment and student record keeping; as well as for review and accreditation as described above. This contract does not include development of any independent study courses.
